Superintendent Naomi McIntosh
Hawaiian Islands Humpback Whale National Marine Sanctuary
6600 Kalaniana'ole Hwy, #301
Honolulu, HI 96825

I am writing to ask your help because I want to see Hawaii's magnificent Humpback whales and other marine mammals fully protected.

Indeed, the Hawaiian Humpback Whale National Marine Sanctuary could become a place where people can learn about all of Hawaii's marine mammals and be a sanctuary for all of the species that live there.

When making changes to the management plan, won't you please:

- Expand the Hawaiian Islands Humpback Whale National Marine Sanctuary to include conservation and management of all of the species living there, particularly the critically endangered Hawaiian monk seal.
- Expand the conservation and outreach efforts of the Hawaiian Islands Humpback Whale National Marine Sanctuary to include Hawaii's other marine mammals, specifically the critically endangered Hawaiian monk seal.

Thank you most sincerely for your help on behalf of Hawaii's treasured marine life.

Yours truly,

J. Capozzelli
