

CLIMATE 101

Monday, April 23, 2012

6:00 p.m.

**Please join us for a special presentation to find out
how climate change affects you!**

Dr. John Marra from the NOAA Climate Services and Monitoring Division and Ms. Jennifer Faught from the NOAA Climate Program Office will provide a lecture discussing climate change and variability, both globally and locally. They will also discuss what actions NOAA is taking nationally and within the Pacific Islands region related to climate change.

FREE PROGRAM

726 South Kihei Road,
Kihei, Hawai'i

More Information? Call 808-879-2818

The Hawaiian Islands Humpback Whale National Marine Sanctuary is jointly managed by the National Oceanic and Atmospheric Administration and the State of Hawai'i.
